

Ward Profile - Baildon

At a glance:

- Baildon has a total population of 15,230 people
- 0.9% of homes in Baildon are empty on a long-term basis and 1.8% are overcrowded, both are lower than the District average. Baildon has the lowest percentage of empty homes on a long-term basis and the lowest percentage of terraced homes in the District
- Life expectancy for both males and females living in Baildon is higher than the District average
- Baildon is ranked 26th of 30 wards in the District for the 2015 Index of Multiple Deprivation where 1 is the most deprived (Manningham ward) and 30 is the least deprived (Wharfedale).

Introduction

Baildon ward is one of six wards in the Shipley area. The ward consists of the villages of Baildon and Esholt and the industrial zone along the Otley Road. The ward also contains the moorland adjacent to Baildon village.

Population

The latest population estimates for mid-2017 show that 15,230 people live in Baildon. Craven has the lowest percentage of people under 16 in the District (16.4%) and Little Horton has the highest percentage (33.4%).

59.1% of the ward's population is aged between 16 and 64. Ilkley has the lowest percentage of the working age population with 54.4% and City has the highest percentage with 72.7% - this probably reflects the high numbers of students and young people living in the areas close to Bradford College and Bradford University.

21% of the population of Baildon is aged 65 to 84. City ward has the lowest percentage with 4.7% and Craven has the highest percentage with 22.4%.

2.9% of Baildon's population is aged 85 and over. City ward has the lowest percentage with 0.6% and Ilkley has the highest percentage with 6%.

Manningham ward had the lowest life expectancy rates for males and Keighley Central had the lowest life expectancy rates for females. Wharfedale ward had the highest life expectancy rates for both males and females.

Life expectancy - males

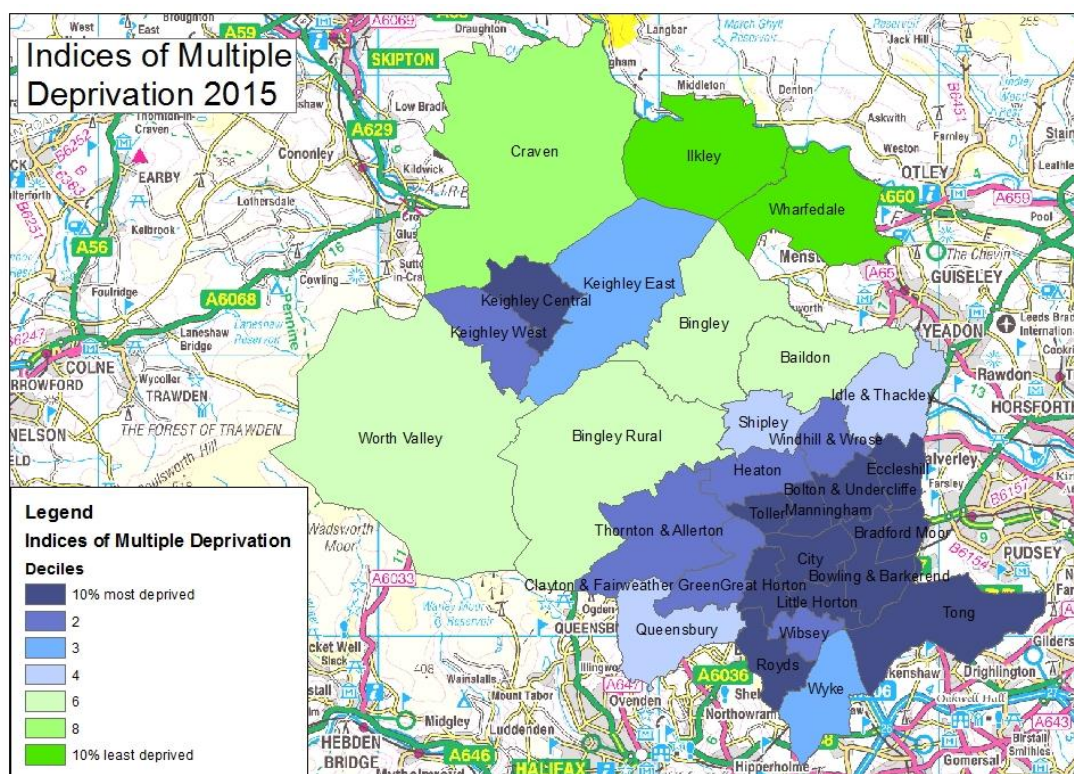

Life expectancy - females

Deprivation

The following map shows wards in Bradford District ranked by deciles of deprivation. Wards which are identified as being more deprived are shown in blue and wards identified as being less deprived are shown in green.

The Indices of Deprivation 2015 were published in September 2015 at district and lower layer super output area. The indices are calculated using 37 separate indicators, organised across seven distinct domains of deprivation (income, employment, education skills and training, health deprivation and disability, crime, barriers to housing and services and living environment) which are weighted and combined to calculate the Index of Multiple Deprivation 2015.

The results have now been aggregated to ward level and this shows that 12 of the District's wards are amongst the 10% most deprived wards in England and two wards are amongst the 10% least deprived wards in England. Manningham is consistently the most deprived ward for most of the indices and Wharfedale is consistently the least deprived ward for most of the indices.

Baildon is ranked 26th of 30 wards in the District for the Index of Multiple Deprivation where 1 is the most deprived and 30 is the least deprived. Baildon is in 26th place for income deprivation and employment deprivation and also for education, skills and training deprivation.

More about deprivation

The data about deprivation has been aggregated to ward level. Although this data provides a description of the District's wards, this description does not apply to every person who lives there. Many non-deprived people live in deprived areas, and many deprived people live in non-deprived areas.
