- Life expectancy for both males and females living in Bingley Rural is higher than the District average
- Bingley Rural is ranked 26th of 30 wards in the District for the 2019 Index of Multiple Deprivation where 1 is the most deprived (Manningham ward) and 30 is the least deprived (Wharfedale).

Introduction

Bingley Rural ward is one of six wards in the Shipley area. The ward stretches from the village of Harden in the north to the District's border with Calderdale in the south. It also includes the villages of Cottingley, Denholme and Wilsden and the surrounding farmland. These communities were once based on the agricultural and textile industries, but are now largely commuter settlements.

Population

The latest population estimates for mid-2018 show that 18,490 people live in Bingley Rural. 17.8% of the population is aged under-16. Craven has the lowest percentage of people under 16 in the District with 16.6% and Little Horton has the highest population with 33%.

60% of the ward's population is aged between 16 and 64. Ilkley has the lowest percentage of the working age population with 54.2% and City has the highest percentage with 72.2% - this probably reflects the high numbers of students and young people living in the areas close to Bradford College and Bradford University.

19.8% of the population of Bingley Rural is aged 65 to 84. City ward has the lowest percentage with 4.8% and Craven has the highest percentage with 22.6%.

2.5% of Bingley Rural's population is aged 85 and over. City ward has the lowest percentage with 0.7% and Ilkley has the highest percentage with 5.8%.

Life expectancy

In 2015-17 life expectancy at birth for both males and females living in Bingley Rural was higher than the District average. Bradford Moor ward had the lowest life expectancy rates for males and Keighley Central had the lowest life expectancy rates for females. Wharfedale ward had the highest life expectancy rates for both males and females.

Deprivation

The following map shows Lower Super Output Areas (LSOAs) ranked by deciles of deprivation. More deprived neighbourhoods are shown in red and less deprived neighbourhoods are shown in green.

The Indices of Deprivation 2019 were published in September 2019 at district and lower layer super output area. The indices are calculated using 39 separate indicators, organised across seven distinct domains of deprivation (income, employment, education skills and training, health deprivation and disability, crime, barriers to housing and services and living environment) which are weighted and combined to calculate the Index of Multiple Deprivation 2019.

The results have now been aggregated to ward level and this shows that 14 of the District's wards are amongst the 10% most deprived wards in England and one ward is amongst the 10% least deprived wards in England. Manningham is consistently the most deprived ward for most of the indices and Wharfedale is consistently the least deprived ward for most of the indices.

Bingley Rural is ranked 26th of 30 wards in the District for the Index of Multiple Deprivation where 1 is the most deprived and 30 is the least deprived. Bingley Rural is in 25th place both for income deprivation and employment deprivation and 24th place for education, skills and training deprivation.

More about deprivation

The data about deprivation has been aggregated to ward level. Although this data provides a description of the District's wards, this description does not apply to every person who lives there. Many non-deprived people live in deprived areas, and many deprived people live in non-deprived areas.
